MOHAMED RIYAS

Web Developer & IT Support

Objective

Seeking a Web Developer and IT Support position that requires strong organizational skills, a keen eye for detail, and the ability to adapt to new systems quickly. I bring over a year of experience in PHP development and IT support, combined with excellent teamwork abilities.

WORK HISTORY

Web Developer & IT Support

National Catering Services & Food Stuff LLC, Abu Dhabi, UAE
2022 - Present

Website Development: Developed and maintained two websites:

- A company portfolio showcasing the business's services and achievements.
- A pizza order website enabling customers to place orders online.

Outlook Management: Configured Outlook accounts, performed backups, and resolved troubleshooting issues to ensure seamless email communication.

Printer and Scanner Configuration: Set up and resolved issues related to printers and scanners to ensure smooth operation.

Network Troubleshooting: Diagnosed and resolved network issues to maintain reliable connectivity.

Shared Folder Configuration: Set up and managed shared folders to facilitate file sharing among team members.

Data Backup: Regularly backed up important data to prevent data loss.

IT Asset Maintenance: Monitored and maintained IT hardware to ensure optimal performance.

VPN and ERP Configuration: Configured Virtual Private Networks (VPNs) and Enterprise Resource Planning (ERP) systems for secure and efficient operations.

LANGUAGES

Tamil:

Native

English:

Fluent

Malayalam:

Hardware Troubleshooting: Identified and fixed hardware problems to minimize downtime.

Canteen Cashless System: Managed a website for a cashless payment system in the company's canteen, ensuring smooth transactions.

Web Developer

Appro Technologies, Chennai, India
2020 – 2021

Dynamic Websites and Web Applications: Developed and maintained websites using PHP, ensuring they were dynamic and responsive.

Backend Development: Wrote server-side code to handle backend logic, database interactions, and enforce business rules.

Database Management: Designed and managed databases, created schemas, and optimized MySQL queries for better performance.

Frontend Collaboration: Worked closely with frontend developers to integrate backend functionality seamlessly with user interfaces.

Issue Resolution: Identified, tested, and resolved bugs and errors in the codebase to ensure smooth operation.

E-commerce Project: Worked on an e-commerce project using the CodeIgniter framework, contributing to both backend and frontend development.
